Reporting on Artificial Intelligence

Project Title	Reporting on Artificial Intelligence
Project Summary	This project will allow a graduate student to consolidate a number of reports on artificial intelligence into a concise report for the Department.
Country	United States
Agency	Department of State
DoS Office	FSI
Post	N/A
Section	N/A
Number of Interns	2

Project Description

Graduate policy students in a Tufts University Sustainable Development Diplomacy course examined broader socio-political and economic impacts of changes in employment, capital and income inequality caused by artificial intelligence as their final class project. The VSFS intern will analyze these 20+ reports and distill them into a final deliverable for the Department.

Desired Skills Interests

Skill
